

Quentin Jaquier, PMP

Senior Project Manager • PMO • Programme Delivery

hello@quentinjaquier.ca | +1 (514) 690-4062 | quentinjaquier.ca | Montréal, QC

Swiss & Canadian citizen, authorized to work in Switzerland & the EU • Languages: French (native), English (fluent)

PROFESSIONAL SUMMARY

Senior project manager and PMO professional with 12+ years leading the delivery and governance of complex programs and business/IT transformations in large, regulated organizations. Strong across the full lifecycle, roadmap, budget, risk, stakeholders and benefits realization, and skilled at turning multi-stakeholder complexity into reliable, decision-ready reporting.

Comfortable defining and running PMO standards, master schedules and steering-committee governance, across both Agile and Waterfall. Hands-on with MS Project, Primavera P6, Jira, Power BI and SAP, and an active practitioner of AI applied to project management.

PMP-certified (2026), HEC Montréal project-management training. Swiss and Canadian citizen, fully bilingual (French / English).

CORE COMPETENCIES

- End-to-end delivery and governance of complex programs and transformations
- PMO standards, master scheduling, critical-path and dependency management
- Roadmap, budget, cost control, forecasting (EAC/ETC) and benefits realization
- Schedule risk analysis (Monte Carlo), risk/issue management and mitigation
- Steering-committee governance and executive (CxO) reporting
- Stakeholder leadership, vendor management and coaching of project managers
- Agile and Waterfall delivery; Power BI dashboards and KPI design
- AI applied to project management: automation, decision support, applied experimentation

TECHNICAL SKILLS

Planning & Controls: MS Project EPM / Online / Server, Primavera P6, schedule risk analysis (Monte Carlo).

Reporting & Data: Power BI, advanced Excel (VBA / macros / Power Query), Oracle, SAP.

Governance & ALM: Jira, Confluence, Microsoft DevOps, ServiceNow, SharePoint, Teams, Visio.

Automation & AI: Power Automate, Excel VBA, generative AI (LLMs), local inference, prompt design.

PROFESSIONAL EXPERIENCE

Senior Project Manager / Planner | Akkodis (VIA Rail mandate)

10/2024 – 10/2025

- Drove the roadmap and master schedule of a \$100M+ infrastructure program, securing governance decisions at executive steering committees.
- Reconciled two competing cost baselines over 5+ years (deliverables-based budget vs Finance cost-code tracking) into a single reliable forecast despite major government-driven scope changes.
- Ran Monte Carlo schedule-risk analyses into mitigation plans; coordinated roughly a dozen vendors with rigorous administrative and financial control.

Project Manager / PMO Analyst | Procom (CCQ mandate)

10/2023 – 09/2024

- Built the integrated plan and governance for a ~\$2M public-sector program; administered change control and financial tracking and executed a major cost reconciliation to restore a single source of truth.
- Designed executive KPIs and steering-committee reporting; coached project managers on methods, tools and governance.

Project Controller | Guy Bernier Conseil (BRP mandate)

04/2022 – 09/2023

- Owned invoicing, estimates and forecasts for a multi-million-dollar project involving the US division, plus the full procurement cycle with multiple vendors.
- Produced project health reporting (schedule, RAID, changes, decisions) across Waterfall and Agile delivery.

Project Coordinator / PMO Analyst | COFOMO (Loto-Québec; Ville de Montréal, HRIS)

08/2020 – 04/2022

- Deployed corporate PM methodology and governance; facilitated weekly IT-team scrums (Jira); automated recurring PMO tasks (Power Automate, macros).

Programme Project Manager | Air Canada

2018 – 05/2020

- Supported a \$1B+ IT transformation (~600 contributors): command center, program-level RAID, weekly executive change reviews and cost-vs-budget reporting across nearly 10 streams.
- Built Excel/VBA tooling that accelerated tracking and improved reporting reliability.

AI & TECHNICAL PROJECTS

AI-assisted PM simulator + local AI assistant | Personal projects

2024 – present

- Designing a deterministic project-management simulator and a multimodal local AI assistant (voice, LLM, GPU inference) using generative-AI tooling.

ADDITIONAL EXPERIENCE

Project Controller / Analyst | Morneau Shepell | 2015 – 2017

Assistant Project Controller / Junior Project Manager | Develocan Management | 2011 – 2015

EDUCATION

Certificate in Project Management, HEC Montréal, 2021

Certificate in Business Management (project management option), HEC Montréal, 2017

DEC, Business Administration Techniques, Cégep de Granby, 2006

CERTIFICATIONS & LANGUAGES

PMP (Project Management Institute), earned May 2026

PMI-CPMAI (AI Project Management), planned 2026

French (native) and English (fluent). Swiss & Canadian citizenship.
